

Clarification from the South Royalton PK-12 Study Committee

In a recent letter to the editor of the Randolph Herald, one of our Royalton Neighbors indicated that the Plan for the Unified School District between Rochester, Bethel and Royalton includes the building of a new school. This statement is false.

The Royalton PK-12 Study Committee and the Royalton School Board firmly state to the Citizens of Rochester, Bethel and Royalton the following:

“There are no new buildings planned in the model and none are contemplated. Should the WRV Unified School District Board deem construction of any building necessary in the future, consideration would be given to Voters in all three towns.”
